

Supported platforms for FIELDVIEW 11.0

All supported platforms are summarized below. Intelligent Light will provide support for the Operating Systems indicated. Intelligent Light expects that FIELDVIEW will run with no or only minor problems in the “Should Function” section of the table below. Please note that these operating systems are not officially supported. Also, options such as User Defined Data Readers and User Defined Functions may not work. It is strongly recommended that you determine whether FIELDVIEW will work with your Operating System before you attempt to install it.

Platform	Hardware	Supported OS	Should Function
SGI	64.bit	6.4	6.5
IBM	RS/6000	4.3	
Sun	SPARC	7.0	8.0
HP	HP9000/700	10.20	11.i*
COMPAQ	Alpha AXP	4.0	5.0
Linux	PC(Intel)	RedHat 7.0	SuSE Pro 8.x/9.x RedHat 7.x/8.x RHEL 3.x
Linux	IA64(Intanium2)	SGI ProPack 3SP6	RHEL 3.x
Linux	AMD Opteron EM64T	SuSE Pro 9.0	SuSE Pro 9.x SLES 9.x RHEL
Windows	PC(intel)**	2000/XP Pro	XP64

* HP-UX 11.0 is not recommended for use with FIELDVIEW

** Requires at least a 1024x768 resolution monitor and at least 256 colors
