

## **FIELDVIEW Introduction Course 1 day**

**Price 750 Euro**

**Pre requisite: No earlier experience of FIELDVIEW or post processing needed.**

Fieldview is a state-of-the-art post processor for CFD. One of the major strengths is easy-of-use and after one day of training you will be fully up and running, creating high profile material for reports and presentations.

The aim for the introductory course is to make you ready to use all the major tools in FIELDVIEW like coordinate planes, iso-surfaces, streamlines, function calculator, flow feature detection tools etc. You will be able to make high-quality pictures, plots, animations and to export datasets to the unlicensed FIELDVIEW ATViewer.
